

# In recognition of their carbon footprint

## Clymac Ltd

is a member of the Carbon Club and for each year of membership:

**2200 trees**

will be planted in new Carbon Club woodlands across the UK, all certified under the Woodland Carbon Code.

**550 tonnes**

of CO2 will be sequestered from the atmosphere.

Carbon Club woodlands will support carbon capture, plus all or some of flood mitigation, cleaner rivers and air, habitat creation, employment, public access and sustainable timber.
